

## Department of Environmental Science

---

### **About the Department:**

The department of Environmental Sciences was established in the year 1997. The undergraduate programme had begun a journey from the year 1999 with adequate students and the college has started its M.Sc. Environmental Science degree programme in 2005. The students had successfully completed projects required as part of degree in various areas covering important issues in environmental science. The IHLRSS (Ph.D. Research Center) in Environmental Science starts from 2021.

### **Vision:**

Creating students for identifying and solving present environmental problems and prevention of future environmental problems.

### **Mission:**

To Infuse a sense of excitement in students to adopt ethical, empirical and aesthetical way for all around development.
